PROFILE SUMMARY

Enthusiastic and detail-oriented recent graduate with a solid foundation in automation testing and Python programming. Equipped with academic knowledge and practical project experience, I am eager to contribute to the quality assurance processes within a dynamic software development team. Skilled in creating and executing automated test scripts, with a strong understanding of testing methodologies and tools.

PROJECTS

Automation testing OrangeHRM   Dec 2023 – Dec 2023 / Chennai

- Developed automated test scripts using PyTest to verify both valid and invalid login scenarios.
- PIM (Personal Information Management) modules, and performing all CRUD (Create, Read, Update, And Delete) operations.
https://github.com/Mr-yogi0512/At_Projects_1
https://github.com/Mr-yogi0512/At_Projects_2

Automation testing Nopcommerce   Dec 2023 – Dec 2023 / Chennai

- Automation testing project focuses on verifying key functionalities of a nopCommerce application using the Pytest framework.
- The tests include validating user login, checking product details, and testing the side panel dashboard.
https://github.com/Mr-yogi0512/nopcommerce.git

Automation testing Saucedemo   Dec 2023 – Jan 2024 / Chennai

- Pytest and Selenium WebDriver, you can create robust automated tests for your Saucedemo application.
- This setup ensures that critical functionalities such as user login, price sorting, PIM module navigation, and product price checks are tested effectively, with detailed HTML reports providing clear insights into the test results.
https://github.com/Mr-yogi0512/TASK-19
